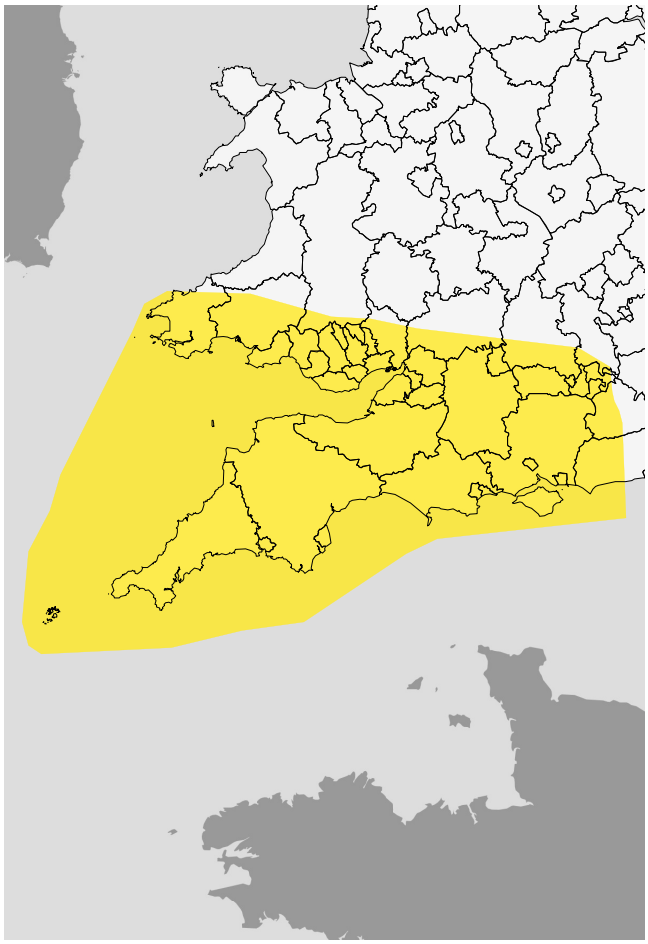
Yellow warning
Thunderstorm

Between
06:00 Sun 1 Jul 2018 and
22:00 Sun 1 Jul 2018



While many areas will see little rain, thunderstorms may develop bringing torrential rain, hail and lightning to a few places.

What to expect

- Spray and sudden flooding could lead to difficult driving conditions and some road closures
- There is a small chance that homes and businesses could be flooded quickly, with damage to some buildings from floodwater, lightning strikes, hail or strong winds
- There is a small chance of fast flowing or deep floodwater causing danger to life
- There is a small chance that some communities become cut off by flooded roads
- Where flooding or lightning strikes occur, there is a chance of delays and some cancellations to train and bus services
- There is a slight chance that power cuts could occur and other services to some homes and businesses could be lost

Yellow warning
Thunderstorm

Between
06:00 Sun 1 Jul 2018 and
22:00 Sun 1 Jul 2018

Further details

Heavy showers and thunderstorms affecting parts of South West England during Sunday morning will become more widespread, spreading into South Wales and further east across southern England in the afternoon. 30 to 40 mm of rain in an hour is possible, though the scattered nature of the showers means it is not certain where these higher totals and any impacts may occur. However where surface water flooding or lightning impacts do occur they are likely to be in only a few places rather than across the whole warning area. The greatest chance of impacts is in the afternoon, with the risk decreasing again on Sunday evening, though a few thunderstorms are still possible overnight.

Reason for update

This warning has been updated to the extend the area of risk further east across southern England.

Very low likelihood of medium impacts

Issued at 10:30 Sat 30 Jun, 2018 Updated at 10:07 Sun 1 Jul, 2018
